PUBLIC FORUM

Dan Jasper, a miner from Relief Hill, requested assistance in reclassifying his site from 3B to 3C to reduce the increase in annual fees, which he cannot afford to pay. He had just received a CalEPA award for collection of mercury. The Chair requested staff follow up.

BOARD MEMBER COMMUNICATION

Christopher Cabaldon expressed his appreciation to the Sacramento Valley Water Quality Coalition for sending him a copy of their 1 April Ag Waiver submittal, postage due.

Karl Longley reported that he had attended the Water Quality Coordinating Committee meeting at the State Water Resources Control Board on 19 April where there had been discussions concerning: the California Performance Review; Basin Planning and the proposed 303(d) listing policy; the environmental philosophies of CalEPA and the Governor's Office; perchlorate; SEPs; and the problem that our agency does not tell its story well. [NOTE: this meeting was also attended by Board members Schneider, Kablanow, Brizzard, and Palmer-Byrd]

Karl Longley also reported attending the San Joaquin Valley Water Coalition meeting on 21 April. The Coalition includes Board of Supervisor members from each of the San Joaquin Valley counties. The members have many concerns involving the Regional Board. Many felt fines are used to cover Regional Board costs. Land use decisions are difficult to complete because of the multiple agency approvals required. There is need for a "one stop shop" for State approval. It can be hard to find an accountable party in many agencies.

Karl Longley also attended the 30 March Air and Waste Management Association forum at which salinity in the Tulare Lake Basin was discussed.

Al Brizard passed out brochures and newsletters from the Almond Board that discussed the Ag Waiver program.

Cher Kablanow attended part of the Dissolved Oxygen TMDL workshop in Modesto.

Chairman Schneider attended a Water Quality Coalition meeting in Yuba City.

The March minutes were unanimously approved as written.

OTHER BUSINESS

PUBLIC FORUM

David Corey, San Joaquin Exchange Contractors/West Side Coalition. Copies of the April submittal were handed out. The JPA has \$1 to \$1.5 million to implement the program this year. They are moving ahead with monitoring.

Bill Jennings, DeltaKeeper commented that:

- The break room is still off limits to the public and drinking water is restricted in the Board room.
- The State Board has approved the Sacramento River Diazinon TMDL.
- Pat Leary and her unit promptly responded to a fish kill in the Calaveras River.
- Isn't it time for an ACL against Musco Olive?
- I told you so. Ag Monitoring programs are generally poor. There will be no monitoring in the Sacramento Valley this irrigation season. There is only one year left before the ag waiver expires. Proposed monitoring sites are sparse and on the main stems.

Tim O'Laughlin, San Joaquin River Authority commented that:

- I told you so. If irrigation districts could represent landowners then there would have been more progress than by dealing with individual landowners.

- A working group has formed to deal with the salt and boron TMDL and to develop alternatives to the staff proposal. Information on the alternatives will be discussed at a TMDL workshop in Modesto next week. The alternative could be presented to the Board at the next meeting, including funding mechanisms.

Michael O'Brien, Beale AFB stated that the proposed permit for Beale AFB was appropriate and thanked staff for their work.
